Get your protection from flu this winter

The flu vaccine is important for people at higher risk of getting seriously ill from flu. It's offered on the NHS every year in autumn and winter, and you can get the free vaccine if you:

- are aged 65 or over
- are aged 18 to 64 and have certain long-term health conditions
- are pregnant
- live in a care home
- are the main carer for an older or disabled person, or receive a carer's allowance
- live with someone who has a weakened immune system
- are experiencing homelessness or staying in a homeless hostel

How to get the flu vaccine

Most eligible people can get the flu vaccine from 1 October 2026. You may be able to get a flu vaccine from:

- your GP surgery
- a pharmacy that offers NHS flu vaccination (if you're aged 18 or over)
- your maternity service (if you're pregnant)
- your care home (if you live in a care home)
- your employer (if you're a health or social care worker)

Book online today

If you're aged 18 or over, you can [book a flu vaccination appointment online](#) or in the [NHS App](#) now.

**be prepared
for winter**

65 or over?

Protect yourself with
the free flu jab from
your GP or pharmacy

Recent Compliments for Garston

We love hearing your compliments for your GP practice.

- Excellent, very professional, very caring.
- Doctor was lovely and really understanding. The receptionist staff were very kind and efficient too.
- Doctor Sandra is so caring, friendly and understanding. Nothing too much trouble and so patient. Makes my surgery visit pleasant rather than a chore. Very happy with the service from Garston. Thank you.
- Polite, kind, caring people and my visit was so helpful with support of me being partially sighted.
- I gave 1 because my doctor was very nice and understanding.
- Same day appointment. No queue.
- Very good nurse.
- I didn't wait long for my appointment.
- Because it's always a nice experience.
- When you talk to doctor, she actually listens.

Have a compliment? Leave it here: primarycare24.org.uk/compliment-or-complaint.

Did you know?

In September, **54** appointments were missed by patients – a loss of at least **18** hours of clinical time.

If you cannot attend your appointment, please cancel it via the text reminder or by letting your practice know, so it can be booked by someone who needs it.

Do you have the NHS app?

The NHS App is a simple and secure way to access NHS services and manage your health on your smartphone, tablet, or a web browser.

The app has the following key features to make managing your health easier:

- Repeat prescriptions: Request repeat prescriptions and choose a nominated pharmacy for collection.
- Appointments: Book and cancel GP appointments, and view upcoming or past visits (depending on your surgery).
- Health records: View your GP medical record, test results, allergies, and medicines.
- And so much more!

You can download the app for free from the Apple App Store or Google Play Store, or you can visit NHS Online via your web browser.

Stoptober – the month to quit smoking for good

Planning on quitting smoking? Stoptober is the perfect time to make a change. This October, thousands of people in the UK will stop smoking. Why not join them?

Did you know if you can reach 28 days smoke free, you're 5 times more likely to quit for good?

Create your free Personal Quit Plan today! The NHS Better Help support offers a free personalised, 8 step plan to help you quit. It'll help you prepare for your quit date, show how much money you could save and give tips for managing your smoking triggers.

Visit www.nhs.uk/better-health/quit-smoking/ and get started.

Just 1 hour of your time can help save up to 3 lives

The NHS Blood and Transplant service needs new blood donors from all backgrounds to ensure there is the right blood available for patients who need it.

Could you help? The service needs 4,300 blood donations every day to meet the needs of our hospitals.

Find out more and check you are eligible today at Blood.co.uk.

An advertisement for NHS Blood and Transplant. It features a photograph of a male doctor in a blue NHS uniform standing next to a female patient in a hospital bed. The patient is wearing an orange gown and has a nasal cannula. A red banner with white text is overlaid on the image. The NHS logo is in the top right corner. At the bottom, there is a small text box and the NHS logo with the slogan 'Save lives Give blood'.

Make the switch

Smarter spending for your NHS

Help us make sure NHS resources are available for more patients, so that we all get the treatment we need, when we need it.

Make the switch

If you take prescribed medication, your practice team may talk to you about switching to another version of your medicine. They might propose a switch to:

- A better value, equivalent version of the same medicine
- A newer formulation of the same medicine
- A different medicine that can treat your condition effectively

Switching medicines is always done with patient safety as a priority, and will only be proposed if the switch is clinically appropriate and right for you.

Across the NHS, huge numbers of patients have successfully switched to other versions of their medicines, and your practice team are here to support you to feel healthy and well.
